

This geotrail consists of 14 geocaches all related to historic and interesting places involved in the John F. Kennedy assassination on November 22, 1963. Every cache page tells an amazing story filled with details and information that you may or may not have known. As you find the geocaches, write in the Code, punch the Passport or Stamp in appropriate box as determined by what you find in the cache containers. These geocaches were hidden with the intent to be found with little difficulty, yet secure enough to stay in place over time. Please be aware of watchful eyes and return the containers to their well hidden places.
